

SEWING MACHINE MAINTENANCE CHECKLIST

- ☐ Remove throat plate and clean bobbin area
- ☐ Brush lint from feed dogs and tension discs
- ☐ Change to a new needle (especially after heavy-duty sewing)
- ☐ Oil machine as needed with sewing machine oil (Check your manual)
- ☐ Re-thread top thread and bobbin to ensure correct tension
- ☐ Wipe down machine exterior
- ☐ Test stitch on scrap fabric before next project

If anything feels off or you're not sure how to proceed:

- Consult your manual
- Look up help from online forums or the manufacturer
- Consider taking your machine in for a pro tune-up
